CCSI Awarded New York State OGS Contract

Bohemia, NY, August 7, 2018 – Contemporary Computer Services Inc. (CCSI), a leading provider of technology services and solutions, is excited to announce it has been awarded the NYS OGS (New York Office of General Services) Information Technology Umbrella Contract, PM68125. After a thorough verification process, this contract confirms that CCSI is a state-approved IT vendor and streamlines the services procurement for New York State authorized users by reducing the bidding processes length.

The OGS contract allows our New York State authorized clients to expedite the procurement process of our verified services: Managed Services and Cloud Solutions. This is in addition to our OGS

contract that covers our Physical Security solutions, PT65383. View a full list of CCSI services available for purchase under these OGS contracts at www.ccsinet.com/state-contracts. Authorized users of the contract, as defined by OGS, include New York State agencies, political subdivisions, local governments, public authorities, special districts, public and nonprofit libraries, and certain other nonpublic/nonprofit organizations.

"CCSI continues to support our customers and provide a simpler path to business transformation. This is why CCSI pursued the NYS OGS contract to cover additional CCSI services and participated in the extensive process to allow our public sector clients to expedite the procurement process and purchase high quality CCSI Managed Services and Cloud Solutions in addition to our Physical Security solutions," said John R. Riconda, President/CEO of CCSI.

CCSI's mission is to help solve modern business challenges with technology solutions that optimize cost, reduce risk, simplify operations, and increase performance. CCSI has pursued this by offering a full circle service of solutions that are tailored for each of our client's unique needs. Now with the NYS OGS contract, our New York State agency clients will be able to take full advantage of our managed services and cloud solutions.
